

Like a child who just learned a new concept and is beaming with new insights derived from meaning, in like manner the universe inflates on, ever expanding. The zone of intersection generates an inflating *field-of-spacetime*. The Big Bang!

## THE BEGINNING AND THE ENDING

"To whom then will ye liken GOD?  
Or what likeness will ye compare unto him?  
It is he that...*stretcheth* out the heavens as a curtain,  
and *spreadeth* them out as a tent to dwell in:"

**Isaiah 40:18,22**

"Which alone *spreadeth out the heavens*,  
and treadeth upon the waves of the sea.  
Which maketh Arcturus, Orion, and Pleiades,  
and the *chambers of the south*.  
Which doeth great things past finding out;  
Yea, and wonders without number."

**Job 9:8-10**

These profound cosmological observations from ancient mystical texts, disclose meaningful insights into an aspect of reality that science only recognized as an existing phenomenon, in the early 1980's. We now understand that the universe is not just expanding but it is accelerating; not like it is stretching, it is spreading out as if the spacetime is upwelling. This is the phenomenon we call dark energy.
