Thoughtless

“...*B*lowed away in the wind
Twirling in circles in the world it's in.
Bond with chains and shackles
Wanting to be free.
Face to the ground down on my knees

...*S*et me free I beg of thee.
I ignore my thoughts as they wonder away.
Flowing straight to the heart like a dart...
Oh! On this rainy day.”

I'm Sorry

You said you were different, and to think,
I believed you.

I had to be blind and out of my mind to play this fool.
Break up and make up is the name of the game.

“*I*m sorry, Baby. I’ll never do it again believe me I’ve changed. I’ll prove it to you if you give me a chance. You just can’t give up on us now, you just can’t. Not after all we’ve been through, smooth valleys and hard times. If you say it don’t matter you’ll be lying. Think about it, Baby, the ups, the downs. What about the love we shared does it mean anything right now?”

“*I*m sorry, Honey. I’ve been holding on too long. You know as well as I know what you did was wrong. If the good outweigh the bad, we just might make it, but what you did I just can’t seem to shake it. Don’t get me wrong we can always be friends. You put me through too much, where do I begin? Tell me, if the shoe was on the other foot, and you were stepping in mine, what would you do? Where would you go? How would you feel in due time?”

Sweet Melody

Some things are not always
what they appear to be.
Your thoughts lead you as far as the eyes can see.

*O*ne minute it's all Humpty-Dumpty glory.
The next it's all Dumpty- Humpty boring.
Sit down here and let me tell you a short story.

A favorite song only you two can share.
A song defining the love to show that you care.

*B*ut you've turned down a long bumpy road.
I guess that song of love you no longer hold.

*W*ait!! The song is playing,
and there are weeping eyes.
All you think about is what happened and why?

A Total Lie

He would tell me how I could change him.

I knew right then the chances was slim.

He said he's addicted like I am a drug,
but he never knew what it meant to give a hug.

I never could show it
'cause he was never around.
I knew what was going on,
him creeping and sleeping nowhere to be found.

It hurt me deep inside
'cause I thought he loved me.
Guess I played the fool I was blind I couldn't see.

I know everybody plays a fool sometimes.

Guess this turn was mine.

So, there I was all alone.
Left in the rain all night long.

A WALK IN MY SHOES

I felt cold with no friends to understand
what I was going through, to lend a helping hand.

I was faithful, never untrue.
Nobody could see the pain I was going through.

I hope you know how I feel.
My love for you could've been real.

Just This One Time

*T*his rivalry started between this one dude.
Had us arguing and fighting in that mood.
The very first argument we ever had
lasted a long time over what somebody said.

*H*ours have passed, and I've heard a lot.
So, now I see all this must stop.
When I build up the courage
I'll tell him to come.
I can't even face him to say,
"I'm sorry for what I've done."

*T*here's this one sentence he said
that hurt me deeply.
A total lie.
A total lie completely.

*P*lease forgive me for what I've done;
'cause I never want to lose you.
I want to know can we start brand new."

I Miss You

I'm missing you
and that's the hardest thing for me to do.

I miss you
telling me all the things I want to hear.

I miss you
pulling me close to you holding me so dear.

I miss you
gazing into my eyes.

I miss you
giving me that mysterious look and I wonder why.

I miss you
why can't I be where you are?

I miss you
I can't stand to be away from you this far.

I miss you
I want to look into your eyes.

I miss you
is there a knot we both can tie?

I miss you
the pain is hurting and it's for real.

I miss you
and the times we laid back and chill.

I miss you,
falling asleep in each other's arms.

I miss you,
cuddling together keeping each other warm.

I'm Sorry Baby

To let you know how sorry I am
words could not express.
Actions could never show,
but I'll do my best.

I put myself in your shoes
and I understand your pain.
I tried to get even
and I only cause shame.
For all the pain I felt
and loneliness inside.
I tried to cover it up and use a disguise.

I should have known better
than to play this game.
I let the rage of jealousy and envy
take over my name.
I'm truly sorry and God is my witness.
I let my vital take over and quit listening.

I you forgive me I promise
jealousy and envy I'll never know.
I love you and I never want you to go.
If you don't forgive me I'll understand.
You'll always be in my heart as that great man.

No Matter

We've made up, and put the past behind.
He even blew a kiss, now that blew my mind.
I'm loving it 'cause he's no longer mad.
Starting brand new forgetting about the past.
'Cause of hear-say my baby & I were into it.
It'll never happen again no matter who influence it.

Today I heard this song that
brought tears to my eyes.
Talking about the distance
between us that made me realize,
no matter what goes on stick by your man.
'Cause when you're down he's bound
to hold your hand and understand.

Rest In Peace

*W*hile you were here everything was cool.

Now you're gone I don't know what to do.

We've had good and bad times,
but in the end they always seem to work out fine.

*F*rom the moment I heard I felt empty and soar.

I cried and cried 'till I couldn't cry no more.

When I walked down the aisle
from my eyes drop some tears.

I looked at your peaceful face
telling me to have no fear.

*Y*ou were gone to heaven my heart is at ease.

To my dear friend Rest In Peace.
