

C

I see that carrots start with
A letter that comes after "B"
But comes before the letter "D"
Which also rhymes with "G" and "P"

I truly love this vegetable,
I eat it chopped or eat it whole.
I sometimes steam it with some rice,
Or bake it in a cake with spice.

Why, just today I do recall,
I ate a carrot - stalk and all,
And now, by gosh, my sight is grand,
So let's give carrots a great big hand!
