About the Author

Preface

What do you want? A loving relationship? Money? A great career? Excellent health? Do you feel lost and want to find your true path in life? Are things bugging you, but you don't know how to make them better? Are you seeking spiritual mastery?

Whatever it is you want, I will show you how to get it.

Many of us don't have what we want simply because we don't know how to get it. We may lack knowledge about how to plan effectively or how universal principles work to drive manifestation and, therefore, can't make use of that power.

In this short, easy-to-read book, I will show you how these universal principles operate. And I will show you a simple planning system based on these universal principles.

The Planning System will:

- Help you get clear on what you want in life
- Organize you so you know what action to take
- Show you how to use universal principles to manifest

This book is the answer to a life-long search about how the universe works and how our physical reality connects to spiritual reality.

For me, finding the answers to these questions was finding the magic key that unlocked all life's mysteries. Surprisingly, I discovered it when I started giving

psychic readings.

It is ancient knowledge that everything is energy and that we create with our minds, our thoughts. The magic key, that unlocked everything for me, is seeing psychically how that energy operates in the human aura to create our reality and how that connects to the divine.

The purpose of this book is to show you how to use this magic key to create what you desire and to change unhappy life situations for the better. In this way, you can begin to feel your true power, the power of your soul and the fundamental love and support of the divine.
