

## Author Proof Checklist: Cover

### PLEASE READ

Hello! This checklist is to help you review your proof before we move forward with your book cover. The items listed below are common areas authors can overlook during the design process. Some of these items are not applicable, which is why we included "N/A" checkboxes. Your Project Manager will also review your files in these areas to ensure the quality of your project. We recommend using this checklist to ensure accuracy of your content and that you are happy with the quality of the final product.

If you identify any problem areas or changes include them in your changes form. Any questions may be directed to your Project Manager. We look forward to getting your feedback and moving to the next phase of your project!

**COVER:** Review the front, back and spine for spelling, accuracy, and placement of elements and content. Not all of these items will apply to you.
